# How To Bubble Roll Number

Step 2: Bubble your nine characters **Roll Number** so that in the *i*th column you bubble the *i*th character only.

Example: In this case we bubble **0022B5678**. In the first two columns we bubble 0. In the third and fourth column we bubble 2. In the fifth column we bubble B. Similarly, sixth, seventh, eighth, and ninth columns are bubbled with 5, 6, 7, 8, resp

INSTRUCTION: Ⓢ Use only blue/black colored ball-point pen to make bubble.  
Ⓢ The right way to fill a box like ☐ is as ☒.  
Ⓢ The OMR sheet will be evaluated by using computer, so no writing is allowed anywhere in the OMR sheet except dedicated places.  
Ⓢ No rewriting, no overwriting, no erasing, and no cancellation are allowed.  
Ⓢ Before bubbling your rollnumber, first convert the rollnumber into nine characters by appending appropriate leading zero(s) at the beginning and bubble that nine characters rollnumber such that *i*th column corresponds to *i*th character in the rollnumber. For example, if your rollnumber is 22B1234 then first convert it into 0022B1234 and then bubble it accordingly.  
Ⓢ Each question has single correct answer, so bubbling more than one option in a single question will fetch zero mark.
